

Purpose of the “LOOK” sign

Stover's panels wrap around a back corner of Home Depot's big packet seed display.

We want customers to look at the back end of the display, too.

Notice the “clip strip” to the right of the LOOK sign. Be sure to allow room for the width of the seed packets (about 4”) when you place the clip strip and the sign.

Depending on the layout of the store, our display will wrap around the left side OR the right side at the back corner of the display. That's why the sign is 2-sided.
